# Yealink Phone Forwarding

## A Guide to forward to mobile numbers on Yealink Phones.

On the Yealink Phone, press the 'Menu' Button to enter the settings for the phone.

In the settings menu, navigate to 'Features' which is the second option and press the 'Enter' button.
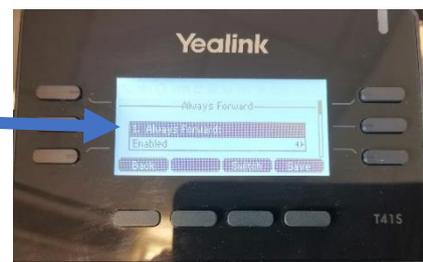

In the following menu, press the 'Enter' button when the 'Call Forward' option is highlighted.

In the following menu, press the 'Enter' button when the 'Always Forward' option is highlighted.

In the following menu, change the 'Always Forward' option to enabled by pressing left/right on the Arrow Keys.

Once this has been enabled, press the down arrow to navigate to the 'Forward to' field and enter your mobile phone number. Once done, press the 'Save' button.
