

Wightlink. Bringing people together

Our routes

We have three convenient Isle of Wight ferry routes to choose from with more than 140 sailings a day, so getting to and from the Island couldn't be easier. Find the best route for you, where to find your closest port and how to get there.

You can travel in your vehicle on both our Portsmouth – Fishbourne and Lymington – Yarmouth routes and if you're on foot or bringing along your bicycle, you can also hop on board one of our FastCats which travel between Portsmouth Harbour and Ryde.

Our quickest route – Portsmouth Harbour to Ryde Pier Head – takes just 22 minute and has excellent rail connections on both sides.
